Inman Wild and Effective by Turns and His Support Proves Wabbly—Slow Game

California 9, Punahou 5. A very bushy game of baseball was witnessed by a slim weekday crowd at Athletic Park yesterday afternoon. the local amateurs showed to advan-tage, both pitchers were hit hard, and fielding errors were frequent. The game dragged, and altogether it was an off day for the national game.

Inay use as many professionals as they employ, but no professional play-er may pitch. The first game is call-ed for July 11, or two weeks from this Saturday, the Saturday of July 4th intervening. Neither the California collegians or

Bill Inman was good and bad by turns, and his support fell down at critical moments. The big fellow, who is said to have professional aspirations, had speed and wide curves, but was very shy on control. With the stick he was mighty, his home run to deep right in the fourth bringing three runs over. Prosperity didn't seem to agree with the Punahou hurier, however, for in the last half of the same frame California cuased four runs across, three men scoring without a hit. This practically decided the game, for the Puns tost heart, and played through the last half of the game in a listless manner.

The locals got off on the wrong foot

The locals got off on the wrong foot when inman walked the first man to face him. Hayes popped to the pitcaer, and Dodson hit sharply to right. The ball was thrown to third, where Hoogs made a wild heave, and Lyman, getting the sphere, returned it a mile wide of second in an attempt to catch Dodson, who came all the way round, getting home on his single

l at the batter. One of these coned with Sebastian's anatomy, and to catch him off the sag, and would have been successful had Nell held the ball, but it rolled to the bleachers,

California got three more runs in the sixth, on three hard hits and a pass. In the seventh Punahou collected a brace on three hits, a foolish piece of footwork by Forbes, who fail-

plece of footwork by Forbes, who falled to touch second for a sure double play, and a passed ball.

Several times during the game a hit would have meant a couple-more runs for the locals, but the batters couldn't come through at the right time. In man spent so much time grieving over what he considered poor calls that he must have weakened his good right arm. As a matter of fact, it was about an even break on close decisions, as many being for as against him.

The feature of the game was the

Baseball fans will have an opportunity tomorrow to pay good money for good baseball and a good cause combined. The University of California team, that is in the midst of an exciting series against local teams, will line up tomorrow against the pick of the Oahu diamonds, in a benefit game for the Leahi Home. All the eds will go to this worthy charity, and the general interest manifest-ed throughout the city indicates that stands and bleachers will be crowded when play is called at 4 o'clock, at Athletic Park tomorrow afternoon. Henry Bushnell of the P. A. C.s.

en in charge of the picked team, and has rustled round for talent to good advantage.

Following is his probable line-up: Buckle, St. I., c; Sloan, P. A. C., p; Fernandez, H., 1b; Kualii, C. A. U., 2b; Lai Tin, C. A. U., ss; Chillingworth, H., 3b; Joe Ornellas, P. A. C. lf; L. Akana, C. A. U., cf; Bushnell, P. A. C., rf. H. Zerbe, P. A. C., sub. There will also be two relief batteries ready to go on the firing line, Moriyama and Nishi, of the Asahis, and Lawson and Swenson, of the Coast Delense, being available.

When a yacht is mak-Last Sunday a number of interest- ing 10 knots against a 25-knot wind, game, there was a large crowd on designer; and, during the races of light; and hence, of two well-designed the past fifteen years, great attention and equally well-sailed yachts, the Following are the results of two has been paid to this element of the one which presents the largest problem. It so happens that the consmount of sail area per square foot Collhooly and Story beat Barnes and Robinson, 6-0, 6-3. Mrs. Barnes and Mrs. Lindsey defeated Mrs. Lewis and Mrs. Dodson, two out of three sets.

The moving spirits in the organization of the tennis club and the popularizing of the game among the soldiers, have been Mr. and Mrs. Barnes, who deserve much credit for their hard work and perseverance. At first the game did not appeal to the men, but now there are any number of tennis fans in the ranks.

Transportation of hollow steel masts and steel wire for wooden masts and steel wire for wooden masts and manila rope, has also tended to reduce dimensions, and so cut down head-wind resistance. When we bear in mind that the standing and running gear of a modern racing yacht will total up from 2,500 to 3,000, or even 3,500 linear feet, and that the mast of an "America" cup yacht will present a total square surface of nearly 200 square feet to the wind, it will the one case in which the challenger. ly 200 square feet to the wind, it will be understood that, in races that are sometimes won by seconds, the question of wind resistance is an importion of wind resistance is an importional wind resistance in the control of the wind resistance is an importion of wind resistance in the control of the wind resistance is an importion of wind resistance in the control of the wind resistance is an importion of wind resistance in the control of the wind resistance in the control of the co War Veterans' hall, which was an unqualified success.

Following is the club membership to date.
